DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) filed on 8/11/03 has been considered by the Examiner.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims.

Therefore, the six IGBT of the rectifier and co-packaged in an IPM must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-31 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bauman (4,573,113).

Bauman discloses a surge protection system for DC power supply during power up in the Figure. A capacitor **27** connected to a first bus of a DC link **17**; a resistor **23** connected a second bus **18** of the DC link, wherein the resistor and capacitor are connected in series; a switching device **21** connected in parallel with the resistor; and a triggering circuit **38** for measuring a DC voltage on the DC link and activating the switching device to short circuit the resistor, a rectifier **12** that receives AC power from a source and converts the AC power into DC power in the DC link, the first DC bus and second DC bus are coupled to an inverter **16**. See col. 2, line 32 to col. 4, line 55.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
